Editorial report

November, 1996
Andrew Koenig
96–0192/N1010

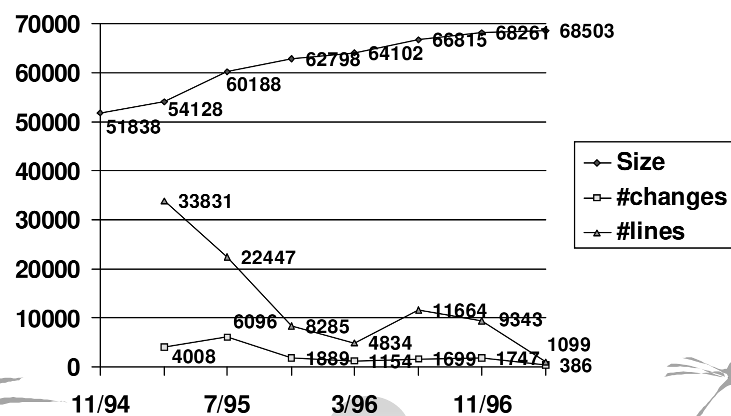
Summary

- ▲ How the Working Paper was produced
- ▲ What was done

How the WP was produced

- ▲ Post-Stockholm editing session
- ▲ Too many volunteers after the meeting
- ▲ Post-mailing editing continued

How much work was done



Bold changes

Only a few, all in lib-iostreams:

42(27.2), 45(27.3), 47(27.4.1), 49(27.4.5.1), 53(27.6.1.3), 55(27.7.1.3), 58, 60(27.8.1.4)

WP production in Kona

All the software needed to deal with editing, including context diffs, and to generate PostScript is on a workstation that Tom Plum has brought to the meeting.

We tested it on a small sample Sunday night.
